

# ***BALLOON SCULPTING WORKSHOP***

***The Art of Balloon Sculpting***  
***These 30-60 Minute Workshops & Performances***  
***Are Also Ideal for Schools & Libraries***

From dogs and cats and apples to monkeys in trees climbing for grapes and bananas to bizarre hats and swords as well as a variety of things only an active imagination can produce,

***Ish*** enthusiastically shares the joy he has for the art of balloon-sculpting.

With his off the wall animated story-telling, his gentle clown nature, and a set of lungs like superman, there's truly no other like him.

This workshop has proven to be a hilarious, participatory, and unforgettable learning experience your entire family will enjoy.

Throughout the years ***Ish*** has shared his joy of Balloon Sculpting at Festivals, Fairs, Schools, Libraries, Children's Hospitals and Old Folks Homes.

Yes, there are three things in this world that are truly universal: music, miming and the joys of Balloon Sculpting.

***Ish-ism: "Love your children for who they are; in the end the seeds you sow are the flowers that grow."***
